

# ADDING CONTENT TO THE EAMO.ORG WEBSITE

For the most part, the website is kept up-to-date by the Area Webmaster using information received from Area Officers. On the other hand, the space on the website which is available for the use of the districts and committees, due to its nature, can only be updated or added to upon the direction of a DCM or standing committee chairperson.

At the present time, the great majority of districts and committees are not making use of the space available to them on the website. Accordingly, the eamo.org website is not being used to its full potential. The more the site is utilized, the greater the chance it will carry out **its purpose**: *“to support our area service workers and to encourage participation in the service structure of Alcoholics Anonymous.”*

The eamo.org website is a 24-hour ready source of information, and is one important way we service workers may communicate between assemblies. This pamphlet is designed to improve awareness of the opportunity to utilize the website, how it may be utilized and the procedure for doing same.

## ***What can be posted on the eamo.org website?***

---

Being that the website is relatively new, the Area 38 Website Committee is interested in learning what districts and committees want to see on eamo.org. The only restriction on website content is that such must be consistent with the purpose of the website.

Here are just a few examples of ways in which districts and committees may use the website:

- If a district or committee already has a separate website, the content of that website may easily be copied into the eamo.org website;
- Districts may post minutes from their district meetings. *See*, for example, the District 5-1 page;
- Likewise, committees may post minutes from their meetings;
- Forms or documents which a district or committee uses amongst its members or in its outside communication may be made available for viewing and download from the website in adobe format. *See*, for example, the Special Needs/Accessibility Committee page; and,
- Events and news of the districts and committees may be posted.

## ***What will one find on the eamo.org website currently?***

---

Although much more could be offered, there is already a lot of information available on the site; for instance, one can find:

- Contact info for standing committee chairpersons, DCMs and the Area Office Manager;
- How groups can serve. *See* the “Groups Can” sections on committee pages;
- A clickable map of Area 38;
- A.A. Links (G.S.O., etc.);
- Special Needs handouts and pamphlets in downloadable form;
- The Gratitude Gazette (current and archived);
- The Procedures Manual;
- Online group update forms;
- General information about the area’s standing committees;
- Area reporting guidelines;
- Expense report forms;
- Answers to frequently asked questions;
- The Area Calendar; and,
- An email link for general questions about the Area.

## ***How is information submitted for posting on eamo.org?***

---

Submissions should be made via email to [\*webmaster@eamo.org\*](mailto:webmaster@eamo.org). Please include the sender’s contact information in the email itself, in case we have questions, and attach the text you would like posted to the email in Word, WordPerfect or html format, as well as any other files (pictures, icons, etc.) you wish to be posted. Please do not hesitate to contact the Area Webmaster with any questions about the submission process. *See* the Area directory.

The turnaround time is usually brief. First, all submissions are reviewed to be sure they are consistent with the purpose of the website. Submissions which do not vary substantially from existing website content do not require approval by the Website Committee, which adds time to the process. The majority of submissions are posted onto the website within two business days.

---

***The Committee looks forward to receiving new submissions.***

---

***Please take this pamphlet to district and committee meetings for discussion.***

---
